PROSPECTUS for Postgraduate Courses

- **Diploma in Medical Laboratory Technology (DMLT)**
- **M.Sc. - Medical Technology (Clinical Laboratory Technology)**

Objective:

To prepare health-care professionals of highest caliber in various diagnostic and therapeutic technologies used for the patient care with a strong foundation and complete orientation of relevant pre-and para-clinical subjects; so as to enable them to efficiently use / assist the specialist in using advanced medical technologies in a health-care set up.

About the Institute:

Smt. L.P. Patel Institute of Medical Laboratory Technology (earlier known as Institute of Diploma in Medical laboratory Technology), under the aegis of Charutar Arogya Mandal, Vallabh Vidyanagar, has been established at Shree Krishna Hospital & Pramukhswami Medical College, Karamsad to provide training, at its NABL-accredited clinical laboratories and NABH-accredited A.D.Gorwala Blood Bank, to the prospective candidates; who desire to pursue their post-B.Sc. career in the field of Medical diagnostics as Laboratory personnel in hospitals, clinical laboratories and Medical Research Centres.

The Institute, through its post-graduate programmes, DMLT & M.Sc.-Medical Technology (in Clinical Laboratory Technology), provides a unique opportunity to candidates to acquire not only the knowledge and skill in the laboratory techniques; but also to sharpen up the edge in the laboratory-based research by undertaking an in-house research project as a compulsory P.G.dissertation in M.Sc. Programme.

The Institute has also introduced graduate courses, B.Sc.-Medical Technology, to impart training to the students in a variety of specializations such as clinical laboratory technology, Imaging Technology, Respiratory care Technology and Operation theatre & Anaesthesia Technology.

Students are trained in the respective department at Shree Krishna Hospital; a well equipped tertiary care Hospital of Charutar Arogya Mandal.

Career Prospects:

Health Care Professionals, well trained in various Medical Technologies, have an extremely challenging and rewarding career ahead. Since the use of advanced technologies in the diagnosis and management of patients has greatly increased globally in recent years; requirement of trained and skilled manpower to assist in various diagnostic and therapeutic technologies has also been growing rapidly.
